## Instructions on how to use this form

To use this form,—

- Type the relevant information into this pdf or write “not applicable”; and
- attach the relevant agreement documents (if any) required by [regulation 139](#). Refer to our [Factsheet on disclosure of relevant interests on the Catalist Public Market](#).

Your disclosure information must not be misleading in any way.

If you have a substantial holding in more than 1 class of quoted voting products, you must make a separate disclosure for each substantial holding.

If you have a substantial holding in 1 class of quoted voting products of a listed issuer and other relevant interests in less than 5% of another class, you do not need to disclose the non-substantial holding.

Email the signed form to Catalist Markets Limited using the following email address: [disclosures@catalist.co.nz](mailto:disclosures@catalist.co.nz)

### Multiple investors giving disclosure

You may give 1 disclosure form for 2 or more investors (substantial product holders) if—

- they have a similar or related substantial holding in the same listed issuer; and
- they are disclosing the same type of event disclosure; and
- they are associates under [section 12\(1\)](#) of the Financial Markets Conduct Act 2013 or connected in the ways set out in [section 237\(a\) to \(e\)](#) of that Act (and this association or connection is set out in this form under the heading “**Additional information**”); and
- it is clear which information relates to which substantial product holder(s) in the disclosure, and the disclosure is not confusing in any other way as a consequence.

Use a separate form or attached to this form for each substantial product holder for whom the information differs.

### Specific instructions on disclosure required by this form:

<sup>i</sup> The *relevant event being disclosed* is a movement of 1% or more in the substantial holding or a change in the nature of any relevant interest in the substantial holding, or both. Both types of relevant events may be disclosed in 1 disclosure only if they relate to the same substantial holding.

<sup>ii</sup> The *date of the relevant event* is the date of the relevant event for disclosure in this form, and it may be relevant to subsequent disclosures for this substantial holding.

<sup>iii</sup> The *date of last disclosure made* is the date on which the last disclosure was given for the same substantial holding.

<sup>iv</sup> The *total number of quoted voting products held in class* is the total number of quoted voting products, in the class, in which the named substantial product holder has a relevant interest at the relevant time. If the person has a relevant interest in a derivative where the underlying is a quoted voting product of a listed issuer, the person is treated as having a

relevant interest in a number of those products that is calculated under [regulation 132](#) (and, accordingly, the *total number of quoted voting products held in class* must include this number of products).

<sup>v</sup> The *total number of quoted voting products in class* is the total number of quoted voting products in the class that was most recently published in a document published by the listed issuer and distributed to holders of that class or on the licensed market operator's Internet site (see [section 283](#) of the Financial Markets Conduct Act 2013), unless you know that number is not correct.

<sup>vi</sup> The *total percentage held in class* is calculated by dividing the total number of quoted voting products held in the class (including any derivative relevant interests) by the total number of quoted voting products in the class, and then multiplying that by 100 (and rounding the answer to 3 decimal places).

<sup>vii</sup> The *details for the last disclosure* are the details that were (or should have been) disclosed in the relevant form as at the *date of last disclosure made*.

<sup>viii</sup> Disclosure is required for the transactions or events as a result of which (together or alone)—

- there was a movement of 1% or more in the substantial holding; or
- there was a change in nature of any relevant interest in the substantial holding.

For each of those transactions or events, or for on-market trades that may be aggregated under these instructions, insert the following details as a narrative or list, clearly indicating which relevant interest or interests were affected and (if disclosure is given for more than 1 substantial product holder) who was the substantial product holder:

- the date of the transaction or event (or the date of the beginning and end of the period of aggregated on-market trades):
- the nature of the transaction or event. This is the means by which the relevant interest was acquired, disposed of, or changed in nature (for example, "exercise of options", "entry into pre-bid agreement"):
- the name of any other party or parties to the transaction or event (if known and if not an on-market trade):
- the consideration, expressed in New Zealand dollars, paid or received for the acquisition, disposal, or change in nature of the relevant interest (or the total consideration paid or received for aggregated on-market trades). If the consideration was not in cash, and cannot readily be converted into a cash value, describe that consideration:
- the number of financial products to which the transaction or event related (or the total number of financial products to which the aggregated on-market trades related).

On-market trades, i.e. trades through a Catalist auction, may be aggregated for the purposes of this disclosure (but acquisitions and dispositions must be separately aggregated).

<sup>ix</sup> The disclosure for *nature of relevant interest(s)* requires you to describe, as at the date of the relevant event, the nature of each relevant interest in the substantial holding, and to—

- state that the relevant interest is "qualified" or "conditional" if there is any qualification on the substantial product holder's relevant interest power to exercise,

or control the exercise of, a right to vote, acquire, or dispose of any of the financial products in the substantial holding; and

- include the details of any trust, arrangement, agreement, or understanding under which, or by virtue of which, the relevant interest or that qualification arises (**relevant agreement**); and
- if there is a relevant agreement for a relevant interest or qualification, attach to the disclosure the relevant agreement (if in writing) or (if the relevant agreement is not in writing) a document setting out its material terms (a **relevant agreement document**) unless—
  - the relevant agreement document has been attached to a previous disclosure and you state this fact and give the date of the previous event disclosure; or
  - the exemption for ownership relevant interests under [regulation 141](#) applies; or
  - the investment management contract exemption under [regulation 142](#) applies; or
  - the Financial Markets Authority has granted an exemption from [regulation 139](#).

If you have more than 1 type of relevant interest in the substantial holding, you must provide the details for each type of relevant interest by separately providing information for each using the appendix on page 4, clearly indicating to which relevant interest the information relates.

<sup>x</sup> The *current registered holder* is the person who is the current registered holder of the financial products to which the relevant interest relates. If this person is not known, state “unknown”. If there is no change since the last disclosure, state “no change”. If there are different registered holders for different parcels of financial products, clearly indicate which registered holder relates to which financial products.

<sup>xi</sup> The *registered holder once transfers are registered* is the person who will be the registered holder once all transfers (if any) disclosed in the form are registered. If this person is not known, state “unknown”. If there is no change since the last disclosure, state “no change”. If there are different registered holders for different parcels of financial products, clearly indicate which registered holder relates to which financial products.

<sup>xii</sup> If the substantial product holder has a relevant interest in a derivative where the underlying is a quoted voting product of a listed issuer, the **details of derivative** requires the following details to be given:

- the notional value of the derivative (if any) (which is the face value or the notional amount in respect of the derivative as at the date on which the relevant agreement is entered into) or the notional number of underlying financial products (if any):
- a statement as to whether the derivative is cash-settled or physically settled:
- the maturity date of the derivative (if any):
- the expiry date of the derivative (if any):
- any prices specified in the terms of the derivative (if any) (eg, the strike price of an option or the price at which a contract for difference was acquired):

- any other details needed to understand how the amount of the consideration payable under the derivative or the value of the derivative is affected by the value of the underlying quoted voting products.

<sup>xiii</sup> Under [section 512](#) of the Financial Markets Conduct Act 2013, it is an offence if a person makes, or authorises the making of, a materially false or misleading statement in this form knowing it to be false or misleading.
